

SeaPort-e

CMA is positioned to provide professional acquisition support services for NAVSEA Headquarters Directorates, affiliated Program Executive Offices, NAVSEA programs, and the Marine Corps, through our NAVSEA SeaPort Enhanced (SeaPort-e) contract.

CMA's SeaPort-e contract was awarded in January 2008, and with options, runs through December 2012. CMA is committed to ensuring that each Navy program using CMA's Seaport-e contract is provided responsive, quality, cost-effective professional support services.

CMA's SeaPort-e contract currently includes Region 4, the Gulf Coast Zone, and Region 1, the Northeast Zone.

CMA's demonstrated expertise has qualified us to provide support in the following SeaPort-e Scope of Work (SOW) areas.

- ▶ Quality Assurance (QA) Support
- ▶ Professional Development and Training Support
- ▶ Program Support
- ▶ Functional and Administrative Support
- ▶ Most Efficient Organization (MEO) Teaming Support Services

Team Members

Belle Enterprises & Technology (BET) has expertise in the SOW areas listed above. In addition, BET has expertise in database development, maintenance, and analysis and information technology. <http://www.betquality.com/>

CMA has developed strategic relationships with other potential subcontractors that can be added as team members with contracting officer approval. Some of those companies include Logistics Management Institute (LMI), BAE Systems, Trace, Inc., Paradigm, Caliber, as well as other small and large businesses.

Quality Control Plans (QCPs)

CMA will customize QCPs to the specific needs of each individual customer. We understand that QCPs are critical in that they specify the processes, resources, and standards to be applied to a product, project or contract deliverable. They are designed around desired results or performance objectives of the customer's contract requirements and are used to verify the quality of products and services. This process allows the contractor and ultimately the customer to determine success in meeting specific contract requirements and customer needs.

CMA Currently Provides Support to our Customers in:

- ▶ Federal Acquisition and Contracting
- ▶ Program Management
- ▶ Market Research
- ▶ Competitive Sourcing
- ▶ In-sourcing Analysis
- ▶ Workload Assessment and Data Collection
